archant QUARTZ

Archant's engineered stone portfolio brings you uncompromising quality with an unsurpassed beauty. It is contemporary, provides flexibility and fuels creative ambition for kitchen design. The surface is manufactured using quality crushed Italian quartz and subject to a range of rigorous quality standards.

Why Archant Quartz?

With beautiful on trend colourways, Archant's Quartz collection is crafted to dramatically enhance your interior design schemes and colour palettes. Our range is more daring, with colours and contrasts that will help you define kitchens in new ways. Taking it's inspiration from nature, we bring you colours that are soulful and intimate while adding a hint of drama.

12 year warranty

Peace of mind comes as standard with Archant Quartz. Not only is it produced to the highest possible standards, it also offers a 12 year warranty.

Food safe

As Archant Quartz is a nonporous surface and resists stains, when properly cleaned, it does not allow the growth of mould, mildew and bacteria ensuring a perfectly food-safe benchtop to prepare food on.

Sustainable

Archant Quartz is sourced from responsible manufacturers mainly from Italy who are not only famous for their design and quality but for their environmental consciousness. The factory is GREENGUARD Gold Certified for low emissions.

Stain resistant

Archant Quartz is a non-porous surface due to advanced manufacturing process where natural resins are used to seal the surface. This makes the surface highly resistant to staining from daily household products such as coffee, wine, lemon juice, olive oil, vinegar and makeup.

Durable

The most advanced manufacturing process is used to produce Archant Quartz, a truly durable Italian surface. The process includes, sourcing the finest ground quartz, combining with natural resins and compacting to a strong and durable slab.

Scratch resistant

Quartz is one of nature's hardest materials, so using a blend of this raw material and compacting at Santamargherita's advanced manufacturing plant creates a benchtop surface with exceptional scratch resistance.

Archant

Simple Green Stone Cleaner

Cleans, protects and maintains
Ready to use
Does not leave streaks

Kitset code
50.8658.ZX

Size
750ml

In the box
Cleaner and microfibre cloth

For every-day cleaning of small stone surfaces such as kitchen bench-tops, tabletops, bathroom vanity tops and wall tiles. Enhances the appearance of the stone and leaves a pleasant odour.

Care and Maintenance
We want you to enjoy your new stone surface for its lifetime. Care and cleanliness is the secret to ensuring your surface retains its beauty. Our quartz based surfaces will resist permanent staining when exposed to common household liquids like wine, tea, vinegar, fizzy drink, vegetables oil, coffee, and grease. We do recommend spills are wiped up as soon as possible because it is easier to deal with a spill than a dried stain.

Additional Recommendations
With our Metropolis slab, this product is made from natural materials and is subject to variations in colour, shade and grain structure.

As there may be variation in the channels and indentations, we strongly suggest you view larger samples in our showroom, along with viewing the full slab your fabricator intends to use. Each slab from our Metropolis range is unique.

Exquisite and Extended Bungalow - Ash Road Residence

The smooth, velvety patterns of the Metropolis Oyster combine with the stark white background for a distinguished, sophisticated finish. Flowing swirls of grey are overlaid with subtle specks of dark grey for contrast. A sense of motion meets calm stillness for a truly serene effect. The dramatic waterfall edges bring added style, creating an inspiring area for meal prep and dining. The benchtop is further complimented by the Stirling Gooseneck tap in a gunmetal finish. This modern and versatile swiveling tap offers quality and timeless style.
