## Unlimited Design Potential

Archant Porcelain is large format porcelain stoneware by Florim Stone for decorative surfaces. The surface features an exceptional resistance to mechanical stress while being lightweight, versatile and with an extremely high aesthetic impact. Produced by Florim Stone, the collections range from the neutrality of a single colour, the texture of stone and cement, the elegance of marble and the the extravagance of metal.

## Thinking Vertically

Porcelain does not have to be limited to benchtops. With large format porcelain, you can create big flooring, walls, and bathrooms. Perhaps you've already seen examples of this from Europe and the USA. Now we can help you achieve this look in your own project.

In addition to its visual beauty, large format porcelain features an impressive number of other benefits including:

- Strong and durable material
- Very little maintenance required
- Virtually imperceptible seams with minimal grout necessary
- Efficient and cost-effective installs with less cutting required
- Stain and heat resistant surface due to the non-porous nature of porcelain

# Why Porcelain?

Archant Porcelain is large-format porcelain stoneware for decorative surfaces, manufactured by Florim. Lightweight, versatile and with an extremely high aesthetic impact, Archant Porcelain opens up new frontiers in design environments, ensuring maximum freedom of expression.

## Ultra-high heat resistance

The hottest pans from your hob will never be an issue as Archant Porcelain is resistant to thermal stress and ultra-high temperatures. No need for a hot mat again.

## Guaranteed to never fade

Archant Porcelain is colour stable, due to its use of proven digital manufacturing processes. It will maintain its appearance over its entire life span.

## Superior stain resistance

Archant Porcelain stoneware is a mixture of natural raw materials, so it does not stain or yellow as it contains no resins.

## Exceptional scratch resistance

Using a sophisticated blend of natural raw materials and proprietary technologies, Archant Porcelain has created a near unscratchable kitchen surface.

## Limitless possibilities

Large format slabs (3200 x 1600mm) in 6 and 12mm thicknesses means you can consider all of your kitchen's components, fully customized to your style.

## The ultimate in practicality

Due to its non porous nature, cleaning up day to day spills is simple and easy. It is also food safe, hygienic, and does not require sealing.

## Perfect for the outdoors

Ultra violet (UV) rays do not damage, change the colour or fade Archant Porcelain. This makes it perfect for both indoor and outdoor applications.

## Peace of mind

Peace of mind comes as standard with Archant Porcelain. Not only is it produced to the highest possible standards it also offers a lifetime warranty.

A deeper, more moodier finish than the Cement Light Grey, this porcelain surface creates a richer, more nuanced result particularly when paired with very dark or very light cabinetry and other fixtures. Being an excellent imitation of dark grey concrete, the surface is a flawless fit with both contemporary and industrial kitchen designs.

Cement Dark Grey is available in a velvet finish and in slabs of 3200mm x 1600mm x 6mm and 12mm deep.

With its cool, grey tones this porcelain surface is the perfect reproduction of a light concrete finish. It makes a great base on which to build an industrial-style kitchen as it tones in perfectly with stainless-steel and can be contrasted with darker colours for excellent visual effect.

Cement Light Grey is available in a matte finish and in slabs of 3200mm x 1600mm x 6mm and 12mm deep.

A deeply textured porcelain surface, Noir Stone has a matte finish that perfectly accentuates its lush black and grey tones. Moody and mysterious, this surface creates an immediate atmosphere for the kitchen and sets the scene with its complex combination of shades. For those seeking to create a dramatic effect, Noir Stone is perfect for a monochromatic colour scheme where it visually pops.

Noir Stone is available in a matte finish and in slabs of 3200mm x 1600mm x 6mm and 12mm deep.

# Colour White

S B F W

Crisp white is a popular choice for kitchen designs for a very good reason – it is versatile and applicable within a wide range of kitchen styles. White porcelain looks clean and bright when used adjacent to cool tones and can really bring a kitchen to life. Alternatively, white can be used effectively to create visual contrast and added aesthetic appeal.

Colour White is available in a matte finish and in slabs of 3200 x 1600mm with 6mm, 12mm and 20mm thicknesses available.

Black brings an edgy touch to any kitchen space and no more so than this porcelain surface with its matte finish. The deep rich tones of matte black bring a sophisticated essence to the room and can be matched with a wide range of complementary and contrasting colours and textures. Black makes the ideal base on which to build a kitchen design.

Colour Black is available in a matte finish and in slabs of 3200mm x 1600mm with 6mm, 12mm and 20mm thicknesses available.

# Metal Burnished

S B F W

Another metal-effect surface, but Burnished Metal is a stunning combination of blacks, browns and greens that show off the oxidation effect so well. This porcelain surface brings a mysterious yet opulent effect to the kitchen with its textured surface of wave-like patterns. The undulating effect gives the surface added depth which adds to the overall ambiance of the room.

Burnished Metal is available in a matte finish and in slabs of 3200mm x 1600mm x 6mm and 12mm deep.

Dramatically monochromatic, Marble Breach is a formulation of intense visceral veins which create a stark contrast to the pure expanse of its white base. The slab explores a dynamic colour dichotomy to excite the senses and create divergent emotions of luxury and mysticism. And, to further explore the authenticity and richness of marble, the veins are intricately outlined in soft pencil-like shading adding depth and dimension to the veining.

Marble Breach is available in a matte finish and in slabs of 3200 x 1600 x 12mm.

Marble Eternal Gold creates an imposing aura of eternal and timeless design. As its name suggests, the slab is timeless in its tonal palate, and elegant in its design. With tones ranging from intense coppers and golds to the softest greys and purist ivories, Marble Eternal Gold is not only an authentic replica of Calacatta marble but provides you with a design that is timeless and unchanging.

Marble Eternal Gold is available in a matte finish and in slabs of 3200mm x 1600mm x 12mm deep.

Unique and yet familiar in tones, Marble Yamuna is a travertine-like stone but with a shimmering translucency across the surface. This translucency is then beautified by its soft tonal palette which ranges from deep beiges to the lightest and brightest ivory tones. While seemingly shimmering, especially under light, the stone is a matte surface creating a visual and tactile juxtaposition.

Marble Yamuna is available in a matte finish and in slabs of 3200mm x 1600mm x 12mm.

Warranty

Warranty Information

To register your Archant Porcelain warranty, please fill in your details online at [archant.co.nz/resources/warranty-application-forms](http://archant.co.nz/resources/warranty-application-forms). By filling in your details it ensures that we have your information on file for warranty claims. Archant and Florim Ceramiche S.P.A. provide a lifetime Warranty to the original owner of our Archant Porcelain slabs that the product will be free from manufacturing and/or structural defects for a period of the lifetime of the end user. Although the product is carefully inspected prior to shipping or delivery, it is the responsibility of the owner to thoroughly inspect the product upon its receipt. Any damage to the product there after is the responsibility of the owner. Final inspection and approval of the installation is also the owner’s responsibility. The Warranty shall apply only where a product is properly fabricated and installed in a kitchen and/or bathroom top in a residential or commercial interior use only, by approved fabricators, subject to the exclusions set out below, is used for its intended purpose, and is maintained and used strictly in accordance with the care and maintenance instructions. All warranty claims must be received by Archant within 28 days of discovery of a manufacturing fault that falls within this Warranty.

Warranty Exclusions

The Warranty shall be null and void unless the product has been paid for in full. The Warranty covers only manufacturing defects and does not apply to material subjected to damage due to mishandling, structural movement, abnormal use, misuse, physical chemical or exposure to direct or sustained heat, cold (thermal shock), exposure to chemicals, force, pressure or loading applied by a person, utensil or object. The Warranty does not cover damage or effects caused by poor installation or improper, insufficient or poorly designed support, cabinets, structures, substrate or sub-floors for bench tops, vertical surfaces or floor tiles. The Warranty does not cover quality of installation or damage caused by the installer or fabricator. Installation or fabrication issues must be resolved directly with the point of purchase and are the sole responsibility of the owner and the point of purchase and not of Archant and are not covered by the Warranty. The Warranty does not cover transportation, freight, removal, disposal and re-installation, fabrication or associated costs beyond the cost of the material, unless these costs have been quoted to, and pre-approved by Archant.

Cleaning and maintenance

Routine maintenance

For daily cleaning, a damp microfiber cloth is enough.  
For regular cleaning, we suggest using a neutral liquid detergent with a soft sponge or a microfiber cloth.

Persistent stains

Persistent stains can be removed with a slightly abrasive sponge; if necessary, use a specially formulated stain remover. Do not use steel wool pads, because these would leave metal traces that would then have to be cleaned again.

Precautions

Remove any spills of staining liquids (like coffee, tea, red wine), caustic substances (such as oven cleaner), acids and colourants as soon as possible and rinse with water. Florim Stone surfaces are particularly resistant to thermal shocks. You can place hot pans directly on the surface, however we recommend the use of trivets to protect the surface over time. Ceramic knives can damage the surface; therefore, we recommend using cutting boards. Avoid hitting the most delicate parts of the surface, such as its corners and edges.

Please refer to [www.Florim.com/en/Florimstone/how-to-clean-kitchen-countertops](http://www.Florim.com/en/Florimstone/how-to-clean-kitchen-countertops) for a reference on to how to clean your Archant Porcelain.

**Matte finish**  
Matte is smoother and flat in its structure, with more movement and slightly less depth.

**Velvet finish**  
Velvet has a slightly wavy structure to the touch and gives the material greater depth.
