Why Robiq?

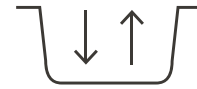

Quality .304 Grade Stainless Steel

Your Robiq sink is hand-made from the finest .304 grade stainless steel ensuring a durable and strong sink.

Brushed Satin finish

The stainless steel is finished in a luxurious brushed Satin finish giving the sink a beautiful lustre and micro-thin layer.

Undermount or Overmount Versatility

Each sink has generous flange size of 20mm which allows your fabricator to easily undermount your sink for a modern and minimal look. Or, the sink can be easily installed and fitted in the top mount position.

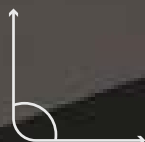

High-capacity overflow

The specially developed high-capacity overflow will prevent flooding if your tap on. Capable of draining 15 litres per minute (the standard is 12lt/minute) this is compliant with multi-level buildings.

30 year peace of mind

Peace of mind comes as standard with the Robiq range. Not just because it's designed and manufactured to the highest possible standards, it's also because of its 30 year warranty.

Easy-clean Corners

Your Robiq sink features a tight 12mm corner radius to give you a modern and squared look. However, the corners are rounded making it easy to wipe clean.

Quick Drain Lines

With four subtle-pressed drain lines, any water will quickly and easily drain away. This will reduce moisture keeping your sink and kitchen more hygienic.

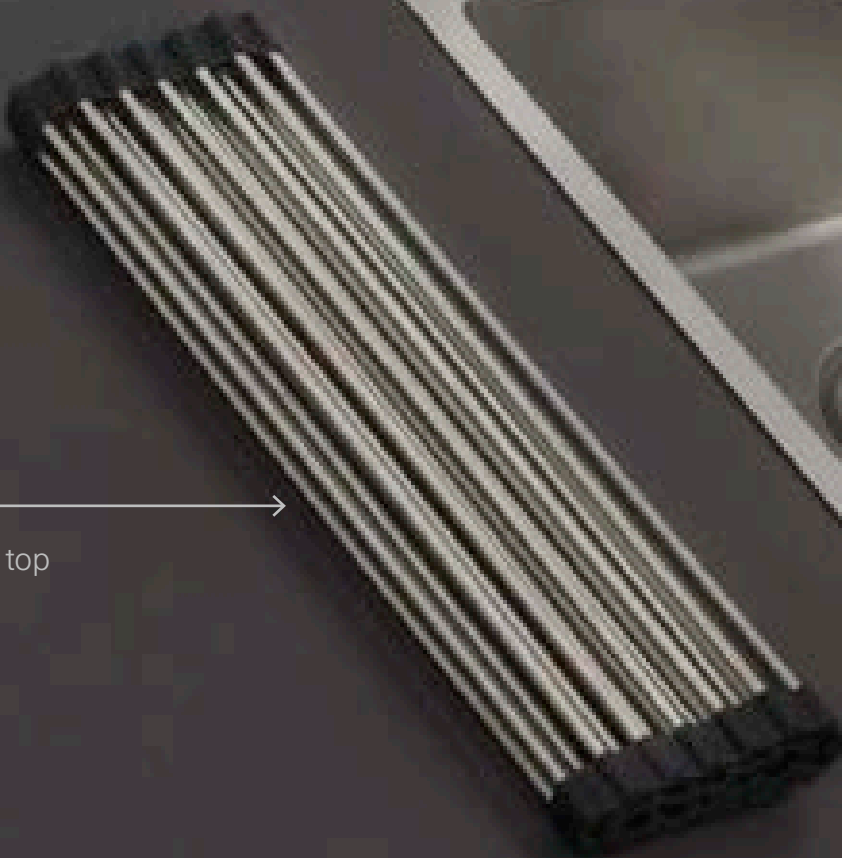

Robiq Accessory Pack

The Standard Robiq Accessory Pack includes our most essential partner products custom designed and made to partner perfectly with your Robiq bowl.

Code: 20.9953.SA

Hot Mat

Protect your bench top
from hot dishes
