## Why Florim Stone?

Florim Stone is large-format porcelain stoneware for decorative surfaces. Lightweight, versatile and with an extremely high aesthetic impact, Florim Stone opens up new frontiers in design environments.

**Ultra-high heat resistance.**

**Outstanding fade resistance.**

**Exceptional scratch resistance.**

**Large format possibilities.**

**Made in Italy.**

**Perfect for the outdoors.**

The client was looking for a classic yet soft look. Being a family kitchen, it had to be hardwearing, scratch resistant and heat resistant. Florim Marble Calacatta Gold was selected for its soft pattern with gold compliments. The black veneer cabinetry works beautifully with the charcoal granite sink mounted below the Franke kitchen mixer. Also, of note is the book-matched marble veining to enhance the continuity and beauty of the Florim marble.

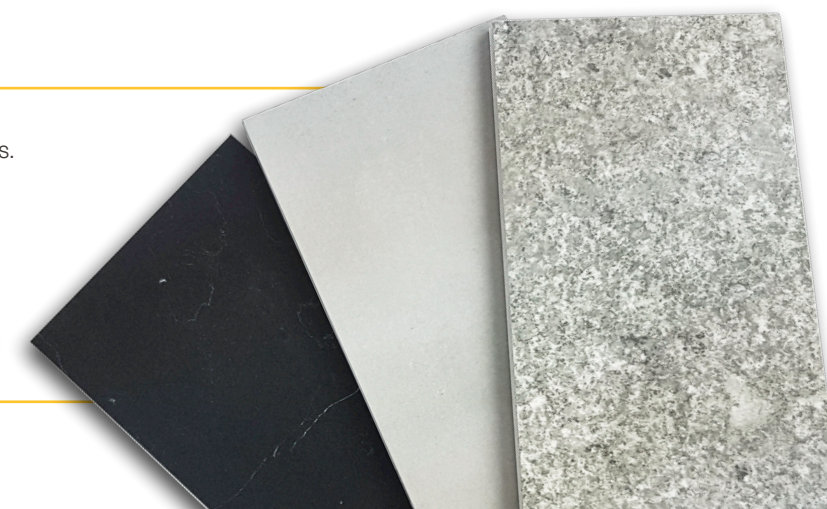

DESIGN: Maggie McGuire  
FABRICATION: Stone by Design

Edge Straight

With three extra finishes available, the Edge Straight range just got better! For those who desire a truly minimal yet beautiful environment, the Edge Straight has a finish for your space.

U-turn

Rounded, subtle and with designer appeal the U turn is another exceptional range from furnipart.

The clean curves, so common in Danish design is a subtle and soft architectural feature to complement any minimalistic space. This shape and design of the U turn almost creates an imperceptible movement, making it a truly beautiful feature when viewed from any angle.

The Classic

Classic and traditional syle with the Classic range. The handle and knob complement each other perfectly to create an architectural feature within the space.

These designs are particularly fitting in a traditional theme where touches of historicism are combined with the classic style and rounded shapes. And with antique finishes available, your traditional space can only be complete with the Classic's.
