Sink Collection

06

It's easy to be ordinary; to have an ordinary home, filled with things you neither love nor hate. But you should never settle for ordinary and that's why we ensure everything we make is wonderful.

Wonderful turns a house into a home and turns work into play. Every Franke product aims to be wonderful in every way; from the first glimpse of carefully considered design, to manufacturing standards that ensures you can feel the quality and craftsmanship of every piece.

Tap Collection

30

Designing taps to the finest standards. The tap is one of the most constantly used items in your kitchen. So we place huge importance on creating products that stand the test of time and make your kitchen a more wonderful place to cook and entertain.

From extravagant to purist. From satin nickel to polished chrome. Whether you prefer a flexible, pull-out head or integrated water filter, the Franke tap range meets every need in every kitchen. Your favorite Franke tap will be the perfect match for your ideal Franke sink. Come and see.

Why Franke?

For over 100 years, Franke has thrived on innovative engineering and outstanding design. Cooking should be fun. Both amateur and professional chefs get the best results with the smart kitchen systems. Franke's high-quality kitchen systems put people first and are tailored to individual kitchen life. Because the kitchen is the heart of every home, we know our way around the kitchens of this world.

Make it Wonderful.

Every Franke product aims to be wonderful in every way. You can feel the quality and craftsmanship in every bowl.

Swiss Precision Engineering.

Franke stand by their sinkware with a 50 year guarantee and 100 years of experience in manufacturing and high precision machining.

All the features you know and love.

Franke are at the heart of sinkware innovation and ideas, giving you the benefits that only they can deliver.

Advantages:

Franke stainless steel is unique.

There's stainless steel and then there's Franke stainless steel. The alloy used by Franke is the result of an evolution that began in 1930.

Franke's surface finish.

Although sheets of metal can be purchased ready-polished, Franke does not do this for its deep drawn sinks. Instead, they polish the stainless steel only once it has been crafted into a finished sink.

Advanced waste systems.

Franke sinks are equipped with stainless steel basket strainer wastes which can be used to prevent foodstuffs from entering the waste system.

Materials.

Each of Franke materials offers its own unique benefits. Whether you want durable steel or natural granite, you simply can't go wrong.

Versions and dimensions.

Franke offers products in a variety of dimensions and configurations. Whether you want a single, double or triple bowl sink or flexible tap option, we have a solution for every kitchen.

Installation.

With a history of outstanding design, Franke has not compromised in their installation systems. Quick and easy sink mounting clips make the install a dream... you'll be using your new sink before you know it.

Hygienic overflow.

Many Franke sinks come with a Hygienic Overflow, which offers versatility for cleaning. Simple removal of the logo plate reveals the overflow aperture for easy, hygienic cleaning.

Peace of mind.

Peace of mind comes as standard with Franke. Not just because it's designed to the highest possible standards, it's also because of its 50 year warranty.

Bring your sink back to life

Franke Twisters are designed to clean and enhance the appearance of your sink by removing minor scratches and stubborn water marks.

Use the Franke Twister special sponge and clean the sink surface, then rinse thoroughly and polish with a moist rag or the softer Franke Inox Crème.

Franke Waste Disposer

This Waste Disposer has a powerful, High Torque 1.25 HP motor that makes it suitable for chicken bones and similarly tough food waste, grinding food down and liquefying it so it doesn't block your pipes.

The Franke Waste Disposer uses a permanent magnetic motor that uses less electricity than induction motors and speeds up faster.

Backed with a life time guarantee on working parts, you also get an air switch that means you can operate the disposer using a button you install in your work top.

FRANKE

Sorting waste for recycling has never been easier

Franke has developed a series of clever waste separation products which help you to take care of our environment.

Separation of the different sorts of wastes has been thought out in detail. The sorter systems glide back into the kitchen cabinet, keeping your kitchen environment clean & fresh.

Warranty

Warranty Information

To register your Franke warranty, please fill in your details online at archant.co.nz/frankewarranty. By filling in your details it ensures that we have your information on file for warranty claims.

Archant and Franke provide a Fifty Year Warranty to the original owner of our Franke sinks that the product will be free from manufacturing defects for a period of 50 years from the date of installation.

Although the product is carefully inspected prior to shipping or delivery, it is the responsibility of the owner to thoroughly inspect the product upon its receipt. Any damage to the product there after is the responsibility of the owner.

Final inspection and approval of the installation is also the owner's responsibility. The Warranty shall apply only where a product is properly fabricated and installed for residential or commercial interior use only, by approved fabricators, subject to the exclusions set out below, is used for its intended purpose, and is maintained and used strictly in accordance with the care and maintenance instructions.

All warranty claims must be received by Archant within 28 days of discovery of a manufacturing fault that falls within this Warranty.

Warranty Exclusions

The Warranty shall be null and void unless the product has been paid for in full.

The Warranty covers only manufacturing defects and does not apply to material subjected to damage due to mishandling, structural movement, abnormal use, misuse, physical chemical or exposure to direct or sustained heat, cold (thermal shock), exposure to chemicals, force, pressure or loading applied by a person, utensil or object.

The Warranty does not cover damage or effects caused by poor installation or improper, insufficient or poorly designed support, cabinets, structures, substrate or sub-floors for bench tops, vertical surfaces or floor tiles.

The Warranty does not cover quality of installation or damage caused by the installer or fabricator.

Installation or fabrication issues must be resolved directly with the point of purchase and are the sole responsibility of the owner and the point of purchase and not of Archant and are not covered by the Warranty.

The Warranty does not cover transportation, freight, removal, disposal and re-installation, fabrication or associated costs beyond the cost of the material, unless these costs have been quoted to, and pre-approved by Archant.

Cleaning and maintenance

Everyday tips

Our stainless steel sinks are made of premium chrome-nickel steel. This high-quality material makes our sinks eye-catching and resistant to stains, rust and corrosion. So we created Inox Cream specifically for the care and maintenance of this special material. This polish is easy to apply and can protect or restore the luster of your sink. Just spread a little on a damp cloth, rub it lightly onto the surface and allow it to set. Then just rinse it off with water and polish with a dry cloth.

Scratches

Unless they're very deep and unsightly, scratches on stainless steel surfaces aren't always bad. In fact, over time, lots of small scratches can add an attractive matte look to your products. But in the event that you have a deep scratch that you want to care for, here's what you can do: take a 3M Scotch-Brite pad and our white Inox Cream. Apply enough of the cream to cover the scratch and then wipe the area with your pad going with the grain of the surface. Once the scratch looks like it has been wiped away, rinse off any excess cream and clean the surface with a dry cloth.

Stubborn stains & rust

Any rust that appears on stainless steel is the result of iron particles coming from external sources. If you want to remove any rust stains from your products, we recommend using a cleaning agent containing oxalic acid. Always use mild, non-abrasive cleaning agents to remove stubborn stains from your stainless steel and make sure you thoroughly rinse away any cleaning liquids once finished.

Caring for stainless steel grids

Clean with mild soap and rinse after each use. It's ok to occasionally clean your grid by putting it on the top rack of your dishwasher. The vinyl coating may melt when it comes in contact with very hot utensils, pots or pans. Avoid the use of scouring pads, abrasive cleaners, harsh detergents, vinyl solvents or substances containing hydrocarbons or ketones. Prolonged contact with foods like berries, tea, coffee grounds, spaghetti sauce, etc. may stain the coating.

Please avoid

- Bleaches containing hypochlorite
- Silver dip cleaners
- Leaving foods like citrus fruit juice, salt, vinegar, mustard, pickles and mayonnaise on your surface for prolonged periods. These foods can cause pitting and corrosion
- Strong acids like photo developing liquids or denture
- cleanser. If they come in contact with your sink, they
- should be washed away immediately with clean water
- Using steel wool pads

The archant promise

Fast delivery

We can deliver Franke anywhere in New Zealand. All Franke orders received before 4:00 pm with stock on hand, will be dispatched the same working day. You'll have your Franke experience before you know it.

Display options

We are more than happy to send you Franke sinkware for your showrooms and displays. We want your customers to experience the pleasures that seeing a kitchen fitted with Franke products can bring.

Money back guarantee

If you're not completely satisfied with our products, we guarantee to refund you in full within one year of purchase. Products returned must be in new condition, unopened, unused and in original packaging. All our products carry a warranty for your peace of mind.

Franke Sinkware Warranty

Franke warrants to the owner of the original installation that its Franke sinkware (the product), when installed in accordance with Franke sinkware current installation procedures shall be free from manufacturing defects for a period of 50 years from the date of completion of installation of the product.

Archant provides a 50 year warranty to the original owners of our Franke sinks that the product will be free from manufacturing defects for a period of 50 years from the date of installation.
